12–16 weeks	Rabies (timing set by local law)	Fecal exam		☐
16+ weeks	Final DHPP dose (not before 16 wks)	Monthly prevention continues		☐
6 months	Spay/neuter talk	Fecal exam · heartworm test as your vet advises		☐
12–16 months	DHPP & rabies boosters	Fecal exam · heartworm test		☐

Questions to Ask Your Vet

- Which lifestyle vaccines make sense for where we live, board and travel?
- Which parasites are common here, and which prevention do you recommend?
- How often should we bring a stool sample for a fecal exam?
- When are my dog's next vaccines and parasite checks due?
